MOSAIC ROOFING SYSTEMS

Stone-coated endurance that redefines the narrative.

With our stone-coated steel roofing solutions, we've crafted a legacy of protection, sustainability, and energy saving that shelters families for generations. It's not just a roof; it's a commitment of unwavering safety and timeless elegance.

Color Palette

Warm and Earthy: This chart mirrors the comforting hues of natural clay and sun-warmed terracotta, ideal for blending seamlessly with rustic or earth-toned architectural styles.
Cool and Serene: These shades evoke the calmness of a tranquil seaside retreat, reflecting coastal skies and ocean waters.
Vibrant and Energetic: Imagine a palette that energizes rooftops with dynamic shades reminiscent of urban landscapes under bright city lights, offering a modern and lively aesthetic.
Majestic and Soothing: Picture mountain peaks at dawn, their quiet majesty painting a serene scene, much like nature's untouched beauty.
Expansive and Calm: Envision the vast openness of the great plains, where gentle breezes sway through endless fields under expansive skies, creating a peaceful landscape that harmonizes with the beauty of nature.

Color Palette

Note: Not all colors are available with all profiles. Custom colors available upon request (additional charge may be applicable).

Rigorous Testing Standards

Mosaic Roofing Systems upholds stringent testing standards to ensure that our products withstand extreme weather conditions. Our stone-coated steel roofing undergoes rigorous testing in controlled environments, replicating real-world weather scenarios. This includes exposure to varying wind speeds(exceeding 240mph TAS-125 Test), impact tests with synthetic hail (achieving a class 4 impact rating), resistance against fire exposure(Class A rating), and wind/rain tests exceeding 8.8 inches of rain per hour propelled by 110 mph winds.(TAS-100 Test)

By consistently meeting or surpassing industry benchmarks, Mosaic assures customers that their roofing products are a dependable and secure option for both residential and commercial buildings.

Miami-Dade N.O.A and Florida Building Code Approvals Pending

Features and Benefits

Mosaic Certified Contractors

Mosaic contractors demonstrate specialized expertise, boosting client confidence and providing direct manufacturer support for high-quality installations. They also ensure accountability to Mosaic standards, enhancing performance, durability, and customer satisfaction.

Energy Savings

These roofs offer superior protection and style while also providing significant energy savings by reflecting solar heat, enhancing the thermal envelope, and supporting modern energy-saving technologies.

50-Year Transferrable Product Warranty

The transferable warranty from Mosaic Roofing Systems—featuring an industry-leading 150 mph wind rating— while enhancing the value of its stone-coated steel roofing system.

Insurance Discounts

Over time, the reduced risk of damage and potential for lower insurance premiums make Mosaic's roofing products a wise choice. Offering both protective and financial advantages to homeowners.

Permanent Re-Roof Solution

Mosaic's durability, low maintenance, aesthetic flexibility, energy efficiency, and environmental friendliness make it an ideal choice for anyone looking to invest in a long-term roofing solution.
